How To Produce Quality Evidence for Advanced Clinical Practice Portfolio

“SLLAP”

STANDARD (4 Pillars)

ACP apprenticeship standard
Multi-professional framework for
advanced clinical practice in England

Have I mapped my learning to the
apprenticeship standard/4 pillars?

- Clinical Leadership
- Advanced Clinical Practice
- Education
- Leadership

Learning (new)

New Learning - What is it and what does it look like?

- Bring your evidence to life e.g. case studies
- Variety of learning, here is a guide that can be applied to all [Trainee ACP's and ACP's to maintain their CPD evidence](#)
- Log time spent on learning
- Have a system of cross referencing to the standard/framework, which pillar?
- What do I need/want to achieve
[Enhanced/Advanced/Consultant Practice](#)
- Research [Core capabilities](#)

Literature

Have I used literature to support this ?

- What type of evidence and why
- Evaluate the evidence
- Do not need lots, just relevant think [Evidence Based Practice](#)
- Use evidence within the last 10 years unless a seminal piece
- Use UWE Harvard style

Application to practice

Application to your practice?

- Has the learning changed your practice?
- This could be personal to you, practice or the organisation
- Change behaviour consideration
- Have a look at the [Advanced Practice Toolkit](#)

Presentation

Have I presented this in a meaningful manner?

- Can you use a work-based assessment tool e.g. CEX, DOP's
- Try a [SWAY](#) or a [PADLET](#)
- [Reflective practice in health care and how to reflect effectively](#)
- Make it interesting!
- [Quality Evidence SWAY](#)
