

## BNSSG Training Hub

# MDT Primary Care Simulation Days

Join us on Thursday 8<sup>th</sup> OR Monday 12<sup>th</sup> September | 08.15AM - 04.30PM

## What is this?

This FREE, face-to-face course is for **primary care clinicians** who wish to improve their skills and abilities in **managing the variety of clinical presentations encountered in daily practice**, when consulting with undifferentiated patients.

This training will explore: **paediatric and adult clinical scenarios**, **acute presentations**, **challenging consultations**, and **safeguarding issues**.

The faculty is made up of primary and secondary care professionals, to enable rich discussions regarding best management of patients presenting with a variety of issues, with a focus on **urgent** and **unscheduled care**.

This course has been organised as part of a program to develop the use of simulation in primary care — as such, it will be FREE to attend, but there will be no funding available for travel expenses, pay, or backfill for training time.

## Who is this for?

This is aimed at **nurses**, **pharmacy professionals** (working at first contact or advanced level), **allied health professionals (AHPs)**, **GPs**, and **physician associates (PAs)**.

**GP trainees**, **advanced practice trainees**, and **first contact trainees** are also welcome.

## Where will this be?

**UHBW Simulation Centre,**  
**UHBW Education Centre Level 5,**  
Upper Maudlin Street,  
Bristol BS2 8AE
